III Irregular irrigation of crops shall be dealt with in accordance with the rules contained in the Revenue Department Notification No 365, dated 11th August 1917, published at page 1034 of Part I of the *Fort St. George Gazette*, dated 21st August 1917, as amended from time to time.

No. 246.—Rule IV of the rules contained in Appendix I-B to Board's Standing Order No. 4, paragraph 2, for the levy of water-cess on lands in the East Godavari, West Godavari, Kistna and Guntur districts, lays down that applications for water for the decomposition of stubble after the harvest of the first crop should be presented to the karnam not later than the 15th November and that the karnam should submit them to the Executive Engineer before the 15th November. It has been suggested that the system makes unnecessary trouble for all the parties concerned. It is therefore proposed to dispense with annual applications and to lay down that once the Executive Engineer has accepted the first application presented after this amendment of the rules, water may be taken for the decomposition of stubble year after year between the dates mentioned in the Executive Engineer's order without any further application. The annexure to this notification contains a draft amendment to the rule which is intended to give effect to this proposal. It is published for general information and will be taken up for consideration by Government on or after 1st July 1932. Objections and suggestions relating to it should reach the Government before that date

ANNEXURE.

Draft amendment to the rules for the levy of water-cess in the East Godavari, West Godavari, Kistna and Guntur districts.

For the third and fourth sentences of rule IV of the rules contained in Appendix I B to paragraph 2 of Standing Order No. 4 of the Board's Standing Orders, the following sentences shall be substituted, namely :—

"Applications for the grant of water for these purposes shall (a) if the water is required during the first crop season, be made in accordance with rule II, and (b) if the water is required during the second crop season, be presented not later than the 10th November to the karnam who will submit

them to the Executive Engineer before the 15th idem. Water, if available, will also be granted free of charge for the purpose of decomposing stubble for use as manure after the first crop has been harvested. Applications for the grant of water for this purpose shall be presented not later than the 10th November to the karnam, who will submit them to the Executive Engineer before the 15th idem. If the Executive Engineer sanctions the grant of water, he shall, in his order, specify the dates between which the water may be taken for the purpose, and the ryot may take water, if available for such purpose, between the dates so specified, on subsequent fasha also, without further application."
